Ladies who make purchases in our Cloak Department have the gratifying confidence and feeling that the Style is in strict accordance with the Fashionable and Refined Taste prevailing at the present time. Excellence of Style and Good Value is our motto.

HEINRICH DOWE, a German, invented a process that renders cloth bullet proof. So perfect is his invention that he has actually stood up dressed in a uniform of this wonderful cloth and been shot at without injury.

We do not claim that our Waterproof Ulsters with Golf Capes to be bullet proof, but we do claim that while porous they are impervious to rain, and that's what's wanted for months to come.

All our New Capes, Jackets, Rain and Waterproof Garments fit well, look well and give such satisfaction that customers are sure to come again. That's how our business has been built.

PRICES.—When you have compared prices you will find Spot Cash's quotations are the lowest in the city.

REPORTS THAT DISAGREE

One Says Port Arthur Has Been Captured and Another That it Has Not.

The United States Cannot Help to Stop the Advance of the Japanese.

London, Nov. 10.—A Yokohama dispatch says it is rumored that the Japanese army has met with a reverse at Port Arthur.

Chee Foo dispatches say Port Arthur has been captured. The dispatches also say five Chinese torpedo boats passed Chee Foo early yesterday steaming in the direction of Weihaiwei.

A Shanghai dispatch says the emperor of China is suffering from fever. The same dispatch says the power of Li Hung Chang is gradually waning. Thirty thousand Chinese are waiting the opportunity to leave New Chwang. The admiralty announces that it has no fears for the safety of the training ship Calypso.

A Chemulpo dispatch says the vice-chairman of the Corean council of state, Kithaku, has been assassinated as a result of the intense anti-Japanese feeling.

Hiroshima, Nov. 10.—At a meeting yesterday the cabinet ministers discussed a number of diplomatic questions. Although it is supposed that the second Japanese army is in possession of Kinchow, no official reports of the occupation of that place have been received. By order of the Japanese commander the Chinese telegraph line from Port Arthur to Tientsin, via Kinchow, has been cut.

Washington, Nov. 10.—In regard to the revival of the gossip of the probability of the United States joining the European powers in an effort to stop the Japanese advance in China, it is pointed out that this government is prevented by the constitution from using its armed force abroad for any purpose but for the protection of American interests, unless authorized by congress.

Tuesday, Nov. 13th.

Lunch will be served from 12:30 to 2, 25 cents; high tea from 6 to 7:30, 25 cents. Musical entertainment in the evening. Admission, 25 cents; free during lunch hour. n10-3t

NEWS OF THE DOMINION.

Case of the Queen v. St. Louis, the Contractor.

Toronto, Nov. 10.—The day after his arrest, on being interviewed in Stratford jail by Government Detective Murray, Almeda Chattelle, the murderer of Jessie Keith, near Listowel, stated that he had for a period of eight or ten months been been an inmate of the Taunton, Mass., lunatic hospital, having been committed from Boston nine years ago. Investigation proved the story false. A letter has been received from J. B. Brown, M. D., superintendent of the Taunton lunatic hospital, stating that Chatelle's name does not appear on the register.

Montreal, Nov. 10.—The case of the Queen v. Emanuel St. Louis in connection with the Wellington bridge, was continued yesterday before Judge Desnoyers in the police court. L. A. Lesage, secretary of the Montreal office of the department of railways and canals, produced official cheques paid St. Louis exceeding $250,000. He was unable to produce St. Louis' tender as it had been given to the Lachine canal commissioners and had not been returned. This testimony was corroborated by Mr. Ernest Marceau, the superintendent engineer.

Toronto, Nov. 10.—The boodle inquiry was adjourned yesterday till to-day, the city council having been unable as yet to translate the cipher telegrams which passed between the Brush company's officials, and which are believed to contain certain references to blackmail. The secretary of the Toronto Electric Light company and Mr. Walmsley and Mr. Wright told them at the time it occurred the story he told in the box yesterday of the conversation with Ald. Stewart.

Guelph, Nov. 10.—Suspicions are awakened of a horrible tragedy at Luther. An orphan boy taken by a farmer from a boys' home has disappeared. No satisfaction can be got from the farmer as to where he is, and it is said that portions of his body have been found in the remains of a burned log house.

Toronto, Nov. 10.—The petition against the election of G. W. Marter, leader of the opposition, member for North Toronto, has been withdrawn by the Liberals.

Port Arthur, Nov. 10.—A heavy easterly gale, accompanied by wet snow squalls, has been under way for the last twenty-four hours.

Otterville, Nov. 10.—Sir Richard Cartwright commenced his annual series of speeches in his constituency last week.

Halifax, N. S., Nov. 10.—The owner of the schooner Coronet received particulars of the loss of his vessel, which was abandoned at sea. The vessel had fine weather after leaving Halifax until October 14, when she met a strong gale and hove to. Five hours later her storm sail was blown away. The vessel was blown on her beam ends and the crew began to cut away her masts. The vessel filled with water by the skylight and companion way, and the stewart, named Aguila, a native of the West Indies, was drowned. The vessel was partly righted. The crew at the time were lashed to the weather rail, where they remained all through the night. When daylight broke it was found that the mate, Freeman Hood, of Halifax, and a Norwegian sailor had been washed overboard. Captain Balcom and two seamen, named Fred and Peter, were all that remained. They were constantly knocked about, enduring much suffering, with neither water nor food and with little hope of being rescued. At 4 a.m. on the 18th the steamer Creole Prince, from New York for Trinidad, bore down and took the sufferers aboard. They were very much exhausted, their limbs being badly swollen and bruised.

Montreal, Nov. 10.—The body of a man named Lebanc was removed from the street railway building this morning, making the third which has been taken out. There are three or four men at the hospital and of these only one is seriously injured. Everybody employed about the building is now accounted for. Architects have not yet made an examination of the building to determine the cause of the collapse, but the building inspector has. He leans to the opinion that the roof was the cause, the linings not being properly bound together. The names of the killed received yesterday are Jos. Maugus and Remi Pauze.

THE ROYAL CITY.

Continuation of the Lobb Murder Trial at New Westminster.

New Westminster, Nov. 10.—The Lobb murder trial was continued to-day when the case for the defense opened. Nearly every medical man in town was present and the expert testimony of five was taken. Before the defense opened Dr. McKechnie was recalled and testified as to finding five bruises on the legs of the deceased and a fresh abrasion on the wrist of the right hand. The medical experts all demonstrated that the wound could have been self-inflicted and some were inclined to think it had, but none would venture a positive opinion either way. The case will probably go to the jury to-night.

A Jap died suddenly at English's cannery last night under suspicious circumstances and an inquest will be held.

Twelve hundred boxes of imported apples have been condemned in this district within the past month. The fruit were infected. A lot of native apples were condemned on the market yesterday.

Monday has been proclaimed a half civic holiday in honor of the Governor-General's visit.

PACIFIC CABLE TENDERS.

All Supposed Obstacles Against the Feasibility of the Scheme Removed.

Neckar Island Not Considered Important as a Landing by the Companies.

Ottawa, Nov. 10.—Hon. Mackenzie Bowell, assisted by Mr. Sanford Fleming and Mr. W. H. Mercer, of the colonial office, England, were engaged yesterday in opening the proposals for the making, laying and maintenance of the Pacific cable. The definite proposals were six in number, as follows: 1—F. A. Bowen, of 3 King's Arms Yard, London; 2—The Telegraph Construction and Maintenance Company of 38 Old Broad Street, London; 3—Messrs. Siemens Brothers, 12 Queen Anne's Gate, London; 4—The Fowler Waring Cable Company of 32 Victoria street, London; 5—W. T. Henley, Telegraph Works Company, of 27 Martin's Lane, Cannon Street, London; 6—The India Rubber, Gutta Percha and Telegraph Company, of 106 Cannon street, London. These are the chief cable manufacturing and construction companies of the world, and their proposals indicate a thorough examination of the great project. Their offers are of the most satisfactory character. They apply to each of the eight routes proposed, and in every case are below the estimates made by Mr. Sanford Fleming and already made public. As these offers are accompanied by very elaborate details, which will require to be examined, carefully compared, and reported on, in order to submit fuller information to the various governments interested, Mr. Bowell did not deem it advisable to make the figures at present public. It may be safely said, however, that the proposals are in each case very much less than was anticipated by those who discussed the matter at the recent colonial conference and as a whole they completely remove every obstacle which had been raised against the feasibility of the Pacific cable. One very noticeable feature of the tenders is this, that none of them make any difference in the routes by way of Neckar Island as compared with that by way of Fanning Island, so that the consent of the Hawaiian and United States governments to the use of Neckar Island for landing purpose, if thought advisable, is not of so much importance, as at one time it was thought it might be.

DOMINION AND PROVINCES.

The Disputed Interest Claim in the Supreme Court.

Ottawa, ov. 10.—The case of the disputed accounts between the Dominion and the provinces of Ontario and Quebec, came up in the supreme court today. This is an appeal from the arbitrators' award in the exchequer court. The point appealed is as to whether the interest on the excess of debt at confederation was to be deducted at the beginning of six months or at the close of six months, that is on July 1, 1867, or on January 1, 1868. The Dominion government holds that as the subsidies are paid semi-annually in advance so the interest should be paid in the same way, while the provinces hold that interest should not be paid until the end of the six months.

THE LATE CZAR'S FUNERAL

An Imperial Convoy to Accompany the Body to St. Petersburg.

St. Ptersburg, Nov. 10.—The funeral train of the late czar arived at Kharkoff to-day, after stopping at several places, including the memorial church near Borki, where the late czar narrowly escaped death in a railway disaster. At all the places a stop was made long enough to hold a requiem service.

Moscow, Nov. 10.—This city has been generally covered with emblems of mourning. An imperial convoy is in readiness at Kharkoff to accompany the czar's body to St. Petersburg. The progress of the funeral train is very impressive, people along the route turning out en masse to do honor to the memory of the dead czar.

THOMPSON IN EUROPE.

The Canadian Premier Goes to Paris on Important Business.

London, Nov. 10.—Sir John Thompson, Canadian premier, said in an interview to-day that no steps had yet been taken regarding Canadian affairs which he was at liberty to announce. Sir John started for Paris this morning on important business. He said on his return he might be able to make public what had been done in regard to Dominion affairs.

HOSTILE CHOCTAWS.

Indians Preparing to Avenge the Execution of One of Their Braves.

Antlers, I. T., Nov. 10.—The Governor has received information that four hundred armed Choctaws are on the limits of Colt and Gaines counties near Wilburton and serious trouble is expected shortly. This is the result of the execution of one of their number near Wilburton last Monday.

—H. M. S. Pheasant goes into the dry dock on Tuesday.

Dr. Price's Cream Baking Powder
World's Fair Highest Award.

RUSSIA'S NEW AUTOCRAT.

Polish Catholics Arrested for Refusing to Take the Oath of Allegiance.

Diamond Workers Strike—Germany Adverse to Interfering in Eastern War.

London, Nov. 10.—The Daily News correspondent in Vienna says: The relatives of the Kilinski convicts have petitioned the czar to pardon them. Gen. Gourko received the petition. This is regarded as proof of an impending change in the situation, as Gen. Gourko never previously accepted a petition. It is reported in Warsaw that Grand Duke Paul will succeed Gourko.

The Standard will say to-morrow: "There is good ground for stating that there is at present little prospect of united action of the powers in China. Russia is ready to act and France offers no difficulty, but Germany does not admit the utility of intervention."

More than 8000 diamond workers struck at Amsterdam yesterday for higher wages and 80 factories are closed. The employers will yield probably if the strikers hold out, but eventually will remove their business to another city, owing to their repeated difficulties with the men in that district.

Many Catholic priests in Russian Poland have been arrested for refusing to to take the oath of allegiance to the new czar. At Lublin Bishop Jacdewski was arrested for reading the oath in Polish.

The Koenig Zeitung says that Nicholas II and Princess Alix of Hesse will be married in three months.

Prince Bismarck's Hamburger Nachrichten advised Germany to secure good relations with Russia by avoiding familiar cause of offence. For instance, it says, she must not favor the Poles nor draw closer to England, nor criticize the czar's absolutism in dealing with the Jews and the Germans in the Baltic provinces.

Justice Romer handed down to-day a decision in the MacArthur-Forrest cyanide of gold extraction process litigation against the owners of the patent. The process is also patented and in use in America.

ELECTION AND PISTOLS.

Fight Ends Fatally at Lexington Yesterday.

Lexington, Ky., Nov. 9.—A bloody political tragedy occurred in Lexington this afternoon at 5 o'clock when John Traynor, marshal of Athens, Ky., hit Lew Sharpe, probably fatally, and shot Ike Davidson to death. Sharpe and Traynor were both Democrats, Sharpe being an Owens and Traynor a Breckinridge supporter. They met in front of the Leland Hotel. Sharpe accused Traynor of having voted for Danny, the Republican. Traynor denied it, when Sharpe called him a d—d liar. Traynor struck Sharpe, who is badly crippled as the result of being shot in the knee during the war. The blow knocked Sharpe to the sidewalk, and before he could get up, Traynor drew a knife and began cutting the old soldier. Pat Toomey, a young friend of Sharpe, rushed to his assistance and knocked Traynor down. Then Ike Davidson jumped in and tried to separate them. Traynor scrambled to his feet and apparently tried to get away, went down the street with two pistols in his hand. The marshal turned and fired, striking Davidson in the stomach. He died in an hour. Sharpe was taken to the hospital, where he is suffering greatly and it is more than likely he will die. Traynor was locked up.

Davidson was a well known distiller. The opening to the bad feeling between the men dates back some time. On election day John Green, who was Marshal Traynor's deputy, shot and fatally wounded George Toomey, a brother of the man who took part in to-day's affray. Pat Toomey, Sharpe and Davidson came to town this afternoon to have Traynor arrested as an accessory to the shooting of Toomey, as the latter is likely to die before morning. Traynor had been arrested and released on bond, when Sharpe met him in front of the hotel. There is already a great deal of bad blood between the Owens and Breckinridge men here and it is feared this will not be the last of the trouble. Sharpe is closely related to Stephen G. Sharpe, ex-treasurer of Kentucky.

GREENWALD'S CASE.

The Smuggler Wants to be Transferred from San Quentin to Alameda.

San Francisco, Nov. 9.—United States Judge Morrow rendered a decision to-day of deep interest to federal prisoners now serving sentence in the jails at Folsom and San Quentin. Judgment was given in the case of Louis Greenwald, the smuggler who was lately sentenced to two years in San Quentin. Greenwald recently made an application to Judge Morrow to be transferred from San Quentin to Alameda county jail on the grounds that he was physically unable to perform prison labor and that he had given Government Detective Harris valuable information regarding the counterfeiters. Judge Morrow's decision to-day was that he could not make the transfer. He held that the president and attorney-general alone had that power.

BEHRING SEA PATROL.

Few American Vessels Will Go North Next Season.

Port Townsend, Nov. 9.—Private advices from a local officer now temporarily located at the Mare Island navy yard say that it seems to be the general opinion among those best qualified to judge that there is no necessity for such an expense or so large a fleet of ships to be sent up to Behring sea as was there during the past season, and without doubt there will never again be such a number sent. A number of officers say that two or three small vessels, even if they carry no more than one or two small guns each, will well answer the purpose.

One of the reasons they give for this is the lack of interest the British government seemed to take during the last season by sending one or two small ships. There is more risk run in Behring sea than in any other part of the globe. No person other than those having seasoned there has the remotest idea of the dangers to be encountered. They are hidden at all times.

"KING" KELLY DEAD.

The Well Known Baseball Player Dies at Boston.

Boston, Nov. 9.—Michael J. Kelly, the baseball player, died yesterday of pneumonia.

The "king" had been ill for several days. It was not thought necessary to summon Mrs. Kelly from their home at Allentown, Pa., until Wednesday, at which time communication was cut off by crippled telegraph wires. Since the ball season closed Kelly had been connected with a theatrical company, appearing in a specialty. Last Monday morning he came to Boston, feeling slightly ill, but well enough to call on a friend at the Plymouth house. He intended to continue his work with his company at a Boston theatre that night, but, feeling unable to do so, called on Dr. Calvin at the emergency hospital. The physician pronounced his disease acute pneumonia and ordered him to bed. Until Wednesday the prospects for his recovery seemed good, but during the night he suffered a relapse and sank rapidly, remaining in a hopeless condition until his death.

(Michael J. Kelly was born at New York in 1857. His career as a ball player began with the Haymakers, of Troy, in 1873, with whom he played right field until 1875. His first professional engagement was in 1875 and 1877 with the Olympics, of Patterson, and in 1878 he played with the Buckeyes, of Columbus, Ohio, with McCormick as his pitcher. In 1879 he was right fielder and change catcher for the Cincinnati league team, and in the fall of that year he came to California with the Cincinnati-Buffalo combination, and in 1880 he was engaged by the Chicagos as change catcher and right fielder. February 14, 1887, he was sold to Boston for $10,000 by the president of the Chicago club. He was captain and catcher of the Bostons during the disastrous brotherhood season. For the last few years he had become so addicted to drink that he could not hold a position. Every club wanted him because he drew big crowds, but he was never in condition and he lost the games. In 1893 he promised to do better, and New York put him in as catcher. He made a wretched failure. During the season just closed he was captain and manager of a Pennsylvania team at Allentown. Kelly had very few equals at base running, being a fast sprinter and taking desperate chances. He was also a heavy hitter. At one time he was the most talked of man in America. The comic papers had pictures and poetry about him, the variety actors sang about him, people crowded the grand stands to see him and the fame he achieved quite turned his head. He went on the stage for a time, but was a wretched failure. The "ten thousand dollar beauty" was the favorite title given him, and "Slide, Kelly, slide!" is good slang unto this day.)

MDME. EMMA CALVÉ.

ONE OF THE BRIGHT LIGHTS OF THE OPERATIC STAGE.

The brilliant little French star whose pleasing face appears above is well known to musical people everywhere. Her wonderful success in the opera of 'Carmen' has placed her in the highest rank of artists. Speaking of 'Vin Mariani,' the great nerve and stomach tonic, she says she took it to 'cure a cold,' and it really enabled her to sing Carmen the same evening. 'Vin Mariani' (Mariani wine) nourishes and strengthens the whole system, is very palatable, never produces constipation; but, on the contrary, aids digestion and assimilation. Send stamp to Lawrence A. Wilson & Co., Montreal, and they will send the portraits of many celebrated people who have testified in favor of this wonderful coca tonic.

AMONG THE ISLANDS.

Batchelor Bakers—An Ancient and Valuable Curiosity.

Plumper Pass, Nov. 5.—Captain McCoskrie, late of steamer Mascot, has settled on Galiano Island, and is about to erect a large residence and start farming on a large scale.

Mr. John Georgeson, of Galiano Island, gave a dance on the second inst. to his friends. A large number were present and a very enjoyable time was spent.

Messrs. John Jack, Melville and Sam Collinson are about to set out north on a hunting trip. They sail from this place in their gallant sloop Victory on Tuesday next.

Mr. Stephen H. Hoskins was awarded a diploma by the Royal Agricultural and Horticultural Society of New Westminster for best home made bachelor's bread.

A trail is being chopped from east to west of Galiano Island, which, when completed, will be of great advantage to settlers at both ends of the island.

A special diploma was awarded by the Royal Agricultural and Horticultural Society of New Westminster to Mr. Herbert Machlin, for the oldest curiosity exhibited at their late fair. This ancient oddity is a knife and pistol combined, and was the weapon with which Jack Sheppard, the notorious English highwayman, committed many atrocious crimes. It dates back as far as the year 1742, and was purchased by Mr. Machlin's father from the South Wilts Museum.

MRS. MOSSOP, MIMICO, ONT.

A modern professional writer says: "A life of extreme labor, or, indeed, extreme exercise of any kind, of extreme anxiety about wordly concerns, of extreme moral excitement of any kind, is unfavorable to long life."

A large proportion of the mothers and wives of Canada shorten their lives owing to the fact that they become too devoted slaves to home and children; they shoulder greater burdens than nature can bear, and as a result health is undermined and shattered; they become wrecks physically, and husbands and little ones lose their best earthly friend.

To all broken down, over worked and sickly women we would say that while there is life there is hope, yes, more than hope; a certainty of renewed life—a freedom from all sickness and physical infirmities. In order to secure this desired change—a happy change that has been experienced by thousands of women, old and young—it is necessary to use a true health builder and strengthener, an agent that purifies the blood and that braces the weak and shattered nerves.

The experience of cured and saved women points at once to Paine's Celery Compound, nature's true and never failing medicine. In this our dear Canada thousands of sincere hearts thank heaven for life and health through Paine's Celery Compound.

Mrs. Mossop, of Mimico, Ont., has a message for all women who suffer as she once suffered. She says:

"I have much pleasure in giving my testimony in favor of Paine's Celery Compound. I was entirely broken down by over work, anxiety and sleeplessness and had pains all through my body. Doctors' remedies had no effect, and nothing met my case until I used Paine's Celery Compound. This medicine has done wonders for me and I would strongly urge all suffering women to use it, as it is the best in the world."

THE BOUNDARY COMMISSION.

Arrangements Being Made for the Meeting at Washington.

The completion of the joint survey of the boundary between British Columbia and Alaska by the engineers sent out by the joint international commission promises to make the question one of the great topics at Washington City this winter and the progress of the negotiation looking to the final delimitation of the boundary will be watched with especial interest on the Pacific coast, where the trade of Alaska is done, says the Seattle Post-Intelligencer.

The work is in the hands of a commission of the two countries interested, which was appointed to settle the two disputed questions remaining, namely the boundary between Maine and New Brunswick and that between Alaska and British Columbia. While the work on behalf of Great Britain is to be done at the expense of Canada, the negotiations are to be conducted by the mother country, or at least in its name, and no arrangement can be closed without the approval of the home cabinet. While this situation ties the hands of Canada in the matter, it does not give it any compensating advantage, for England is not prepared to spend any money or to run any risk of a serious dispute with the United States in regard to the matter, nevertheless Canada has shown more zeal and liberality in taking up its side of the case than the United States, for while Congress appropriated $50,000 for the whole survey, and this has proved just about enough, Canada has spent about three times as much and has sent out larger parties splendidly equipped.

The old definition of the boundary was that Alaska was to extend ten marine leagues inland from the general trend of the coast, but this vague definition has left the way open for numerous disputes as to what is the general trend of the coast, which will be the business of the commission to settle. The boundary as at present vaguely defined was agreed upon before any survey had been made and when the coast was supposed to be comparatively unbroken, like that of California. Surveys have shown that it is broken by many deep, broad inlets and estuaries similar to Puget Sound, extending far inland from the proposed line, and in many cases more than the specified ten marine leagues. It is on this point that the most serious dispute is likely to arise, for the Canadian commissioners will claim that the general trend of the coast would cut across the mouths of these inlets, whether broad or narrow. If this contention should prevail, it would leave a strip of water several miles at the head of each of these inlets and fronting on a point where a port for the back country would naturally be established in British territory. The United States, on the other hand, will then either have to establish ports on the steep and rocky sides of the inlets or allow the products of its territory to be shipped out of the country through these British ports. Thus, by conceding the Canadian contention on this point, the United States would be yielding up the key to its own territory and would put its Alaskan citizens in such a position that they would have to pay perpetual tribute to the British. To secure control of the sea coast is of vital importance to this country, since all the products of the country are exported and almost all of its supplies are imported, and the sea is the only means of ingress and egress. The American commissioner will doubtless claim that the 30 league strip should be measured along both shores and up from the head of each of these larger inlets, claiming that the intention was to give the U. S. the whole territory from the backbone of the coast range of mountains to the sea. This would give the United States control of the country far into the interior, for the natives of the interior do their trading with the coast Indians, who do not allow them to cross the range but sell the products brought from the interior to the traders on the coast.

The boundary of the main portion of Alaska, the northern portion, will not be a subject of dispute, but will simply follow a certain degree of longitude and crosses the Yukon in the vicinity of the mouth of Forty-Mile Creek, leaving the placer mines of the Upper Yukon in British Columbia. As the only practicable route to the Upper Yukon is over the Chilcat Pass, it will be quite natural for Canada to assert a claim to the Chilcat country.

DO THOU LIKEWISE.

A LADY SAVES FIFTY DOLLARS BY WISELY INVESTING SEVENTY-FIVE CENTS.

A wise, careful and thrifty wife and mother living about five miles from a large flourishing Ontario town, tells how she was enabled to save fifty dollars by the judicious investment of seventy-five cents. Her story runs as follows:

"Last autumn I found it was necessary to provide some new overcoats, suits and dresses for three boys and two girls. The material for these garments and the making and trimmings would cost fifty dollars. This was a large sum to expend just at a time when we were making great effort to build a new house.

"For two days I thought the matter over, and after carefully examining my children's garments, the question strongly presented itself to my mind, 'can I make use of the Diamond Dyes?'

"I had used the Diamond Dyes before with great success in a smaller way, and so I determined to see what could be done, with the view of saving so large a sum as fifty dollars. My children's garments were not torn or very badly worn; they were simply faded, dingy and old looking. I commenced with an overcoat to test my skill, and succeeded in dyeing it a lovely dark shade of brown. I pressed and finished it in such a way that it looked like a new garment from the hands of a tailor.

"Meeting with such great success, I tried the other garments and achieved wonderful results, and the total cost of the work accomplished was only seventy-five cents.

"My boys and girls were astonished, and were quite as well pleased with the renovated garments as they would have been with brand new ones. Very few people around me were aware of the fact that I had used Diamond Dyes to renew my children's clothing, and fit it for another winter's wear. Of course I told some of my frieds how I had saved fifty dollars, and they are following my example, and are freely using the Diamond Dyes.

"You will clearly see how any intelligent and handy mother can easily save quite a good sum of money every year. Diamond Dyes are certainly money savers."

CANADIAN NEWS.

Latest News from Eastern Canada in Short Paragraphs.

The Patrons of Industry, in convention at Fergus, nominated W. L. Gordon, of Pilkington, as candidate for the commons.

An order-in-council has been passed at Ottawa constituting all the territory lying between the 100th parallel and the eastern boundary of British Columbia an indipendent revenue division.

P. W. Starr, manager of the Toronto Academy of Music, was committed for trial by Magistrate Denison on a charge of exhibiting alleged indecent posters of a theatrical troupe. He desired to secure an interpretation of the law by a higher court.

The St. James Presbyterian church, in London, is the first church in Canada to adopt individual communion cups. The vessels are very small and are passed to the communicant on trays. They hold thirty cups each. The entire set was a gift of a lady member who favors the change.

Premier Greenway, in reply to the petition of the Catholics for redress on the separate school question, has forwarded a note to the chairman of the delegation, referring them to a recent memorial by the Manitoba government to the privy council as his answer to the petition.

H. C. Payne, one of the official receivers of the Northern Pacific Railway is at Winnipeg with a party of officials. The object of his visit is to take the management of the affairs of the branch roads out of the hands of the sub-receivers appointed to take charge of the different divisions. An order is to be asked from the courts.

At the Brandon assizes James Beatty, charged with shooting with intent to kill his wife, was found not guilty. On July 13 last Beatty shot his wife Rebecca while she was in the company of one W. H. Greer. Beatty, who is an old man, admitted that he shot his wife and justified himself on the ground that he was driven to distraction by the conduct of the woman, who, he said, lived in open and notorious adultery with Greer. The jury brought in a verdict of not guilty, on the ground that the prisoner did the shooting under a specific delusion.

A Toronto dispatch says:—Herbert Moulton, representing one of the largest lumbering firms of Northern Michigan, is in town, having just returned from a trip to the northern part of Ontario, where his firm anticipate establishing a branch business. Since the new tariff law came into effect, he says, a number of wealthy lumbermen in Michigan have been looking toward Canada as a field in which to extend their industries. In an interview Mr. Moulton said the new tariff law affected lumber places the United States in about the same position as Canada would be in the event of annexation, and as the forests of Michigan are gradually becoming exhausted they are almost forced to look about and Canadians may expect a rush for mill sites in the northern part before long.

Danger From Catarrh.

The most important feature about that very common complaint, catarrh in the head, is its tendency to develop into some other more serious and dangerous disease. The foul matter dropping from the head into the bronchal tubes or lungs is very likely to lead to bronchitis or consumption, that destroyer which causes more deaths in this country than any other disease. As catarrh originates in impurities in the blood, local applications can do but little good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla. The powerful action of this medicine upon the blood expels every impurity, and by so doing cures catarrh and gives health to the entire organism.

The Daily Times.

TO THE RESCUE!

Although we are not in the secrets of the gods at Ottawa, we feel inclined to predict that the general elections will take place as soon as the lists are completed. There are unusually strong indications that the government contemplate an appeal to the country in March. The customary tactics are being employed in the Maritime Provinces, where Mr. Clarke Wallace is stirring up the Orange element in one section and Mr. Costigan is appealing for Catholic support in another. Messrs. Ouimet, Patterson and Tupper are also busy down by the sea, the two former being engaged in selecting sites for drill sheds and public buildings, while the mission of the latter appears to consist in waving the old flag—a trick that has been successfully employed by his sire in the past. Then again Mr. Bowell is absent, so is Sir Adolphe and Mr. Haggart is in the vicinity of his ditch. Mr. Foster is abroad raising the sinews of war and the Premier is most assuredly looking after the interest of Sir John Thompson. These are usually signs of approaching dissolution. It is therefore of vital importance that the Liberals of Victoria—and, in fact, all who are opposed to the present government—should see that every detail of organization is perfect and complete, so that the Liberal majority in this city may be a sweeping one—and that we may be in line with the victorious forces of Laurier.

Just after the last general election Principal Grant declared that protection had won its last battle, and a few months later when the full force of the revelations of ministerial corruption and dishonesty was realized he likened Canada to Sodom and Gomorrah. The general upheaval of public opinion throughout the Dominion against that engine of extortion, the National Policy, foreshadows its destruction at the polls, while the vigorous criticism and unconcealed indignation openly expressed by many who have hitherto actively supported the protectionists are among the most encouraging features of the situation. The moral sense of the country has been outrageously insulted and abused, and the people are eager to administer correction to the authors of Canada's captivity and Canada's shame. To free the country from the dishonorable bondage of a corrupt bargain is the duty of the hour. To deliver her from the blight of protection, rescue her from the curse and oppression of monopoly and administer an effective rebuke to corruption is the obligation the shocking condition of affairs imposes upon all who love Canada. The people should stand shoulder to shoulder in defense of the rights and liberties transmitted to our care by a glorious ancestry and which are engraven in the constitution our forefathers succeeded in establishing after many a valiant struggle against oppression. Let us turn our backs upon this horrible system of political wretchedness and party villainy engendered by the vicious system of protection. Let us transplant British principles in this vast territory we are called upon to govern and develope, and still closer cement our connection with the Old Land by striving to reach that lofty pinnacle of political morality which is the pride and glory of Englishmen, and by following the fiscal policy of that Little Island we point to with pride, speak of with veneration, and love to call home.

We must take our ideas from our mother land if we are to become strong and pure in political sentiment and action; and we must imitate her fiscal policy if we are to become great in industry and commerce. We have followed the lowest methods of American civic politics too long, and we must cease to look upon such notorious scoundrels as Boss Tweed as the political ideal. The approaching election will present an opportunity by which we may recover much of what we have lost, and a sweeping victory for the reform party may be safely predicted. It must not be forgotten that at the last election the protectionists nearly suffered defeat—although they were well equipped with the money stolen from the public works department and were led by Sir John Macdonald and Sir Charles Tupper. The result of the general elections in 1891 was 117 Conservatives and 95 Liberals, making 22 majority, but in two instances two seats were contested by Conservatives, which made the majority 25. Many of the constituencies captured by the government were carried by small majorities—sometimes by a single figure. Nova Scotia only elected five Liberals out of a representation of 21. New Brunswick only returned 3 out of 16. If these two provinces had been evenly divided the government would have been defeated. Manitoba and the Northwest sent only one Liberal to Ottawa. British Columbia sent none.

Since 1891 a sweeping change has come over the country, and many circumstances have arisen to discredit the government and still further weaken protection. The charges made by the Liberals during the last campaign have been justified by the subsequent revelations of the Connolly-McGreevy episode. Then we have had the Curran bridge robbery, the "Hard Pan" and other steals. The mute eloquence of the census is, also, a ghastly arraignment of the whole policy pursued by the government. Sir John Macdonald is no longer here to unite the inharmonious factions and lead the party. In Ontario McCarthy is fighting the battles of the people side by side with the Liberals, a combination certain to give the Liberals a large majority in Ontario. In Quebec the same encouraging prospects are announced. The Maritime Provinces will send a much larger Liberal representation, while it is confidently announced that Manitoba and the Northwest are solidly opposed to the government. In British Columbia the prospects are brighter than ever before, and from Atlantic to Pacific everything points to a sweeping Liberal victory.

IN THEIR NEW HALL.

The A. O. U. W. and Their Friends Indulge in a House Warming.

It was house warming at the A. O. U. W. hall last night, when Vancouver lodge, No. 5, and the Degree of Honor welcomed their friends and made them at home. The entire building was thrown open to members and their friends, whose creature comforts were looked after most carefully by the efficient committee who had charge of the arrangements. An excellent programme of music, just long enough to be enjoyable, was provided by a number of ladies and gentlemen, after which restraint was put aside along with the chairs and cloaks and a thoroughly good time was indulged in by the two or three hundred present. Mr. Thomas Haughton, R. Seabrook, J. T. McIlmoyl, and several other prominent figures in the order, occupied the platform, the first named gentleman making a capable chairman. Mr. Haughton, in welcoming the brethren and their friends to the house warming, gave them some figures and facts in connection with the order that were both surprising and gratifying, as showing the power for good which the order is among its members. He briefly and interestingly traced the growth and history of the A. O. U. W. during its twenty-five years' existence and showed its phenomenal growth in power and numbers. On 1869 this order commenced with 50 members, when their payments for the relief of the widow and orphan commenced. These payments have steadily grown, till now the aggregate sum the order has paid out in relief amounts to the enormous sum of $51,050.14, and now the society is paying out something like $700,000 a month in this good work. This could not be comprehended in mere dollars and cents, for apart from the actual money paid out the society takes care of its sick members, keeps them in good standing while unable to work from physical disabilities, and its strong brethren are ever at the bedside of the weak or ill helping in the nursing of that brother back to health or smoothing the last road that all have to travel some time or other. Mr. Haughton gave instances of this to show that it was more in practice than in theory the good offices of the society were heard of and felt; one case being that of a member who had allowed his dues to lapse through carelessness, but rather than see the widow suffer for it the members here had each subscribed a dollar, and thus made up the two thousand dollars to which she would have been entitled had her husband carried out his trust to her. There were many other instances which he could give of the usefulness of this organization among the workingmen, to whom high insurance is out of the question.

The secretary of the Victoria Lacrosse club this morning received a formal challenge from the Westminster Lacrosse club to play an exhibition match in Victoria on Saturday 17th inst. A meeting of the players and executive will be held on Monday at 5 p.m. at Mr. Irving's office on Broad street to consider the matter

CARON SURRENDERS.

He Reinstates the Postoffice Employees as Demanded at Public Meeting.

Clerks Return to Work Trusting to Government to Get Fair Play Hereafter.

The post office difficulty has been settled for the present, but whether the settlement will be lasting remains entirely with the Dominion government. Yesterday the post office inspector sent each of the clerks and letter carriers who walked out on account of the government refusal to pay them their provisional allowance the following notice:

Dear Sir:—I beg to inform you that the Postmaster General has authorized the reinstatement of the suspended clerks and letter carriers of the Victoria postoffice, but that the question of salaries and extra payments must be left with the government to decide and adjust. If you are willing to return under these conditions please report to me either personally or in writing not later than 12 noon, to-morrow, the 10th inst.

Last evening the clerks and carriers met in the Y. M. C. A. rooms to consider the proposal submitted by the postmaster-general through Inspector Fletcher, but nothing was decided upon, as a number of those interested were absent, and also because those present did not wish to discuss the matter in the presence of Mr. A. B. Gray, deputy commissioner of conciliation and arbitration, "whose presence," to use the words of one of the clerks, "was considered an intrusion, as they had already received his advice as a member of the board of trade."

Another meeting, however, was held this morning, when it was decided to return to work and trust to the honesty of Caron to pay them what is due them as provisional allowance, and also to pay them fair wages in the future. It is thought, however, that there will be no trouble in the future, the recent very emphatic demands of the citizens of Victoria for the reinstatement and proper treatment of the clerks and carriers having had its effect at the federal capital.

The clerks return to work this evening, the regular night shift going on at 6 o'clock and the day shift recommencing work to-morrow. It is expected that by Monday morning the work, which has been piling up and getting rather badly mixed, will be straightened. The carriers will start out as usual on Monday morning, doing away with the inconvenience caused by people having to call at the office for their mail.

BRIEF LOCALS.

Gleanings of City and Provincial News in a Condensed Form.

—Why cough, while Bronchial Balsam cures coughs and can be obtained at Bowes' drug store, 27 Johnson street? *

—A fine line of razor straps just arrived at Fox's, 78 Government street. Come and learn how to strop your razor. *

—Special facilities for making blank books and doing extra clasp and other superior binding at R. T. Williams & Co.'s, 28 Broad street. *

—It is a fact that the B. & H. burners give the greatest satisfaction. They are fitted to the "new line" of lamps just to hand. Weiler Bros. *

—The Ladies' Association of Emmanuel Baptist church are making preparations for a sale of work and Thanksgiving tea on Thanksgiving Day.

—The lockets won by the James Bay lacrosse club are now finished and on view in Challoner and Mitchell's windows. They are of handsome design and well made.

—Canton Victoria, No. 1, P. M., will hold their regular meeting this evening at 7.30 p.m. All members are requested to attend in full dress uniform for the purpose of initiation.

—The St. Andrew's and Caledonian Society will hold a special meeting this evening. The business affairs of the Hallowe'en concert will be considered and closed up and the coming banquet of the society will be discussed.

—There will no doubt be a great crowd at the "Cinderella" ball to be given to-night at the drill shed by the "non-coms" and men of the B. C. B. G. A. The decorations used at the citizens' ball still remain in place, the floor is in even better condition than it was, and the B. C. B. G. A. band will play about the same programme of dance music. All the officers will be present in uniform. The hearty manner in which the B. C. B. G. A. entered into the reception to Lord Aberdeen deserves recognition by the public for it. Tickets may be had at Davidson's, Hibben's and at Waitt's or from any of the committee.

—The Canada Gazette of to-day will announce the naming of Captain Charles E. Clarke, master of the steamer Alert, as harbor master and port warden, to succeed the late Captain W. R. Clarke, deceased. The new appointee is well known in shipping circles and will perform the duties of the office very well.

—The steamer Walla Walla sailed last evening for San Francisco with the following cabin passengers from Victoria: E. Pitts, W. E. C. Moorhead, Mrs. E. Horne, Miss Mathisen, F. J. Sims and wife, R. V. Webster, A. Magnesen, Miss R. K. McGregor, Miss P. Sevcer, H. McKenzie and wife, Joseph Leach, R. Sargent, R. Pittock, T. J. Jackman and wife, Miss J. Anderson and Miss M. Anderson.

—Out of respect to memory of Alexander III of Russia Queen Victoria has expressed the wish that flags be half-masted throughout the British Empire until after the funeral. The following official telegram was received yesterday:

Ottawa, Nov. 9.

Lieutenant-Governor of British Columbia.

Copy of the following telegram received to-day from the Governor-General is communicated to you by command of His Excellency in Council:

"The Queen desires mourning throughout the Empire for the Czar as follows: Flags half mast until after the funeral. Inform your government. L. A. CATELLIER,
Under Secretary of State.

—The date of the investigation at the Old Men's Home has been set for Tuesday next, and the members of the council will be on hand at 10 o'clock in the morning to make a start. The following notice has been posted at the Home:

Notice to Inmates of the Home for the Aged and Infirm.

Inmates of the Home are directed to take notice that the Mayor and Council of the city of Victoria will visit the Home on Tuesday the 13th inst., at 10 a.m., for the purpose of investigating all matters connected with the institution. Any inmate having complaints or charges to prefer against the management must prefer his complaints or charges in writing, and must be prepared to substantiate the same at the hour and date above mentioned.

(Sd.) JNO. TEAGUE, Mayor.
November 9, 1894.

Law Intelligence.

The adjourned application for the postponement of the trial of this case came before Mr. Justice Crease at 11 o'clock this morning. Mr. Bodwell, for the petitioner, read an affidavit meeting the respondent's contentions in asking for a month's adjournment with Clinton as the place of trial. He said the mere saving of expense was not such a particular circumstance under the authorities on the election act as to warrant a change of venue from Victoria, the place fixed by statute. Mr. L. G. McPhillips, Q. C., for the respondent, Mr. Prentice, argued that the English authorities were not applicable to the local conditions in British Columbia, inasmuch as the policy of the English act was to keep the trial in the county where the election was held, while here Victoria was fixed on as the place by order-in-council. Judgment was reserved until Monday.

BRIEF LOCALS

Gleanings of City and Provincial News in Condensed Form.

—A few more chrysanthemums at four for a dollar at Higgins'.

—Cutlery, plated goods, China ornaments, etc., in abundance at Weller's.

—If you are a stranger in town and looking for any one, call at the Gem restaurant at noon. You'll find 'em all there. Next door to the Victoria hotel.

—Thorpe and Company's soda water works, injured by the fire early this week, are operating every day without interruption. The machinery was not damaged to any extent.

—There was a general rehearsal this afternoon of "The Meeting of the Nations," the soloists, choruses and orchestra being present. Those who are taking part are making excellent progress.

—We are glad to learn that the "PAIN KILLER" is having so large a sale in our city. We have every reason to believe it an almost never failing cure for pain, and is a medicine that no family should ever be without. mfwyp'S..W should be without. 25c. for a big bottle.

—The usual Saturday evening Gospel temperance meeting will be held in the Methodist church, Herald street, and an interesting programme is expected. Instrumental and vocal selections will be given and refreshments will be provided. The meeting opens at 7:30 instead of 8 as formerly.

—Triumph lodge, No. 16, I. O. G. T., held its weekly meeting in Blue Ribbon Hall, Esquimalt, on Thursday evening. It being the night for the new officers to entertain, a programme of song, recitation and musical selections was rendered by Messrs. George Garland, Culpin, Colwin and Moody and Mrs. Newbigging and Miss Isbister. Visitors are cordially invited.

—Before the fall you could get along somehow without a wrap, but now that the season is advanced a waterproof, Cape, ulster or jacket is a necessity. To-day you can get a very beautiful garment for very little money at Partridge's Lansdowne house, 86 Yates street, as he is going out of this line. He needs the room for his millinery department.

—Clergymen, architects or contractors requiring cathedral leaded windows or ornamental glass of any description, can procure exactly what they want by treating direct with the manufacturers, McCausland & Son, 68 King street west, Toronto, whose work in these lines is unsurpassed for variety and beauty of design. Their church and household windows are adopted by the leading architect of the province. Send them particulars and get prices.

—Captain William H. De Wolf, who brought the steamer Walla Walla from the Atlantic to the Pacific, and who was prominent in naval circles during the civil war, died at his residence, Seattle, on Wednesday afternoon, in his 65th year. Although it is not generally known, he was directly connected with the most illustrious families of Rhode Island, and was the personal friend of General Burnside, Admiral Rogers, Henry Villard, the financier, and many other prominent men. He was a master of the American Shipmasters' association, and during his seafaring life visited almost every port in the world.

—The teachers, at a meeting of their association in the Y. M. C. A. hall yesterday afternoon, concluded the discussion on technical education, which was introduced by Col. Baker at a meeting in the city hall a short time ago. The association recommends in its report to the school board, that kindergarten schools be established in the cities of the province, that the teaching of object lessons be introduced into the public schools and that a special teacher be provided for each high school in the province to give manual training of an advanced nature to all pupils who desire it. The association also passed resolutions pointing out the urgent need of a normal school in the province, and recommending that the promotion examinations be held at midsummer only. Two interesting papers were read, one by Miss Sprague on "Promotion Examinations," and the other by A. J. Pineo, B. A., on "School Room Ethics." Both papers were ordered published by the association.

THE WOMEN MUST MOVE

Council Decides That Any Houses That Are a Nuisance to Church Must Go.

Resolution is General and Matter Placed at Discretion of Chief Sheppard.

The city council went into the social evil question this morning and decided to instruct the chief of police to remove any house of ill-fame wherever located, which is a nuisance to anyone in the vicinity. Every questionable house in the immediate vicinity of St. Andrew's Roman Catholic cathedral will, therefore, have to go and the discretion of the chief of police shall dictate which houses are and which are not in the immediate vicinity of the church. The police commissioners were not prepared to bear any responsibility in the matter despite the fact that it was shown that the council had no authority whatever. The council, however, went into the matter and directed the chief of police as stated above. The mayor and all the board of aldermen were present.

The first business before the meeting was in connection with the purchase of the watershed around Elk and Beaver lakes. There was considerable discussion over the matter, which finally resolved itself down to two propositions advocated respectively by Ald. Humphrey and Ald. Wilson. The former was in favor of setting aside a certain sum of money sufficient to build the filter beds and do further necessary work of a similar nature, the balance to be used for the acquisition of the watershed, buying the land from point to point starting at the dam, the water commissioner reporting on each section as dealt with. The proposition of Ald. Wilson was to purchase the entire watershed. It was finally decided on motion of Ald. Dwyer, seconded by Ald. Humphrey, that the water commissioner be instructed to purchase the watershed beginning at a point in section 107 and following the line of the watershed around by the dam and thence east to the southern boundary of section 43 and then report. William Wilson was then selected as the arbitrator for the city to act in connection with the purchase of the land.

Then came the matter for which the meeting was called. There were four letters. The first was from the Sisters of St. Ann, who conduct the kindergarten and girls' school on View street. It pointed out that the locality was infested with houses of ill-fame, showed the evil example set to the children and named other objections. The second letter was from Rev. Joseph Nicolaye, who is acting as administrator of the diocese in the absence of Bishop Lemmens. He entered a general complaint against the presence of the houses, told of open soliciting in the street, and disturbances at night, showed the inconvenience to members of the church and the bad example to children, pointed out the injustice of driving them from one church to another, and demanding their removal from all four blocks surrounding the church. The third letter was from John Jessop, a property owner on View street, who refused to rent to such women. He said the value of his property was depreciated, that it did not pay in rentals half of the public charges of taxes, etc., and told of frequent insults to his tenants. The fourth letter was from Chief Sheppard, who said that he regarded the question as a wholesale one and too much for him to assume alone. He asked for orders and promised to carry out the will of the board.

Ald. Dwyer spoke first. He said that he could readily appreciate the justice of the complaints of anyone living near such houses but how to dispose of the matter was another thing.

Ald. Ledingham speaking seriously said that it was the mission of the church people to rescue them and not to drive them away. The last to go to View street should never have been driven from where they were around St. Andrew's Presbyterian church.

Ald. Munn said that he did not want to shirk any responsibility but it was clear that the police were not under the control of the council. The legislature some three years ago had changed that giving the police commissioners control, and he was surprised to see this letter from the chief. As to these women and their offences the criminal code made full provision for them.

Ald. Humphrey said the council did not direct the change from around the St. Andrew's Presbyterian church and should not direct this.

Ald. Styles—Your worship, why cannot the same power which evicted these people from Broughton street be invoked here?

The Mayor—Oh, this is a larger matter.

Ald. Styles—But, your worship, the power is the same.

The mayor said that he did not know anything about that change, but he would call in Magistrate Macrae.

The latter came in and made a lengthy explanation. The keeping of or being an inmate of a house of ill-fame was, he said, an offence against the law, but the law had never been enforced. Councils for twenty years had winked at it. As he saw the duties of the commissioners, it was simply to regulate the force, and they made no laws. As to the first removal of the women, he explained that the church authorities had complained to the chief, and the latter acted. When this complaint came up he advised Chief Sheppard that it was too big a matter for him to settle. He looked upon it as a matter of policy for the council to decide. If the order came to close the houses they would be closed in two weeks' or all the women would be in jail. It had never entered his head that the commissioners should decide the matter, and he felt sure that it was the duty of the council to do all possible for good government. He did not have much faith in attempts to suppress such houses and the crusades usually scattered the women about a city.

Ald. Dwyer said that an attempt to stamp out the social evil in Winnipeg had resulted as the magistrate said.

The mayor said that he doubted if the council had the right to drive them from any one district to another.

Ald. Munn—Should not the police enforce the laws as they find them?

Magistrate Macrae—Yes, but this law has been tacitly left alone.

Ald. Styles still maintained that the same power which drove them from Broughton street should obtain here.

The magistrate agreed, but said this was a much larger matter. It took in four blocks, with nearly all the women of the class.

Ald. Wilson said that he believed in keeping it in one place and that he recognized that it had to exist. He was opposed to hasty action, and thought that as a solution they might order the chief to tell the women to move as soon as convenient, and if the locality picked was not objected to all would be well.

The mayor said if they were driven away from those streets they would be all over the city.

Ald. Baker suggested that they leave them where they were, but place them under strict police surveillance and keep them to themselves.

The mayor replied that that was done already.

Ald. Baker and Harris were in favor of having the ones who recently moved to View street ordered to move again.

The mayor then said that as he understood the expression of the members they would say nothing and do nothing.

Ald. Wilson said that that was not by any means his idea. Every house that was a nuisance to that church would have to go. Every woman dumped up there from the other church would have to go forthwith. These people must be ruled with an iron hand. He moved that the chief of police be instructed to remove any house of ill-fame which proves a nuisance to any one in the vicinity, the matter to be left to the discretion of the chief of police.

Ald. Dwyer seconded the motion.

Ald. Humphrey said he felt satisfied the new ones should go, and the magistrate said he believed they had already been notified.

Ald. Munn—Point out to me the section under which we are proceeding?

The Mayor—General principles.

The Magistrate—The council have had a policy for twenty years; now if there are any new ideas disclose them.

Ald. Munn quoted from the municipal act to show where the police had been taken from the control of the council.

Ald. Baker agreed with Ald. Munn and Ald. Ledingham seconded the following motion which he offered:

"That neither the direction of the police nor the administration of the law is vested in the municipal council. This board is nevertheless of the opinion that the laws for the preservation of decency, order and protection to life and property should be at all times enforced by the police without instructions from this council."

The amendment was lost, Ald. Munn, Ledingham and Baker alone supporting it, and the original motion was carried on the same division.

For Sale—30 lots, situate on Cowan and Richmond avenues, Bank, Amphion and Hutton streets, in the healthiest part of the city; price $200 to $275; terms, five dollars down and five dollars per month, without interest. This is a rare chance whereby anyone may secure a building site for a small monthly payment. Apply to Morrow, Holland & Co., Times Building, Broad Street.

NEWS OF THE INTERIOR

Mining and Other News of the Interior, From the Mainland Press.

Death of Isadore Boucherie, One of the Early Settlers in Mission Valley.

Vernon News.

Mr. Ellis informs us that with the exception of a few finishing touches the grist mill is now in running order. Steam has been kept up for the last few days, and grinding will begin this week. Mr. Ellis has received a considerable quantity of wheat, which is stored on the ground floor of the mill, and he appears well satisfied with the arrangement of the machinery, and confidently states that the flour which he will soon be placing on the market will be found second to none. Next week we expect to give a detailed description of the building and apparatus.

Many old-timers in this district will hear with regret the news of the death on Friday last of Mr. Isadore Boucherie at Okanagan Mission. In his death the country loses another of the sturdy pioneers who penetrated the mountain wilds in days long before railways were dreamt of by the most sanguine. Mr. Boucherie was one of the earliest settlers of Mission Valley, where he has resided for about 32 years. He had been also a Cariboo miner in the early days of the gold excitement and there accumulated considerable wealth, which was afterwards materially increased by judicious investments in cattle in this district. Although his exact age was not known, he is supposed to have been above 90 years old, and for the past few years has been in feeble health. The deceased was a native of France, and of Hugenot descent. Many stories are told of his eccentricity in his later years; one of his peculiarities was a great distrust of banks, and he is supposed to have hidden, at various times, large sums of money which will now, in all probability never be recovered. He left a will in which Mr. E. Louis Morand was appointed his sole executor. Mr. Morand went down to Kelowna on Monday and will endeavor to wind up the estate as expeditiously as possible.

Mr. L. Norris informs us that the wagon road is now practically completed from Penticton to Midway. Mr. Louis Christien will continue work on the section between McKinney and Rock Creek until hard frost sets in and will widen the grade and otherwise improve the roadbed, which was put through as hastily as possible, in order to insure connection this season.

Letters received from the lower country state that the millers on the United States side of the line are pushing a very cheap grade of flour in that district. It is made from the slightly damaged 20 cent wheat, and although apparently cheap is really dearer than the best "Three Star" brand, the number of loaves to be made from a barrel being fewer. Cheapness and economy are not always identical.

Messrs. Kirkpatrick and Allen have apparently struck a good thing in their new placer claim on Siwash Creek. The result of last week's "clean-up," although neither of them worked full time, was $76 in coarse gold. This creek has been worked more or less steadily for the past six years, but in most cases bare wages is all that any of the miners have obtained. It is thought that on the lower part of the creek which runs through the Indian reserve rich ground exists, but the Dominion Government will not allow mining to be prosecuted on reservations of this nature, and the exact richness of the diggings has never been ascertained.

The Columbia Flouring Mills, Enderby, have already received 400 tons of wheat, shipped from Vernon station, and have contracts calling for 200 tons more. This is not nearly so much as shipped last year, the crops being so short. The quality is hardly up to the average, and it takes from ten to fifteen pounds more of grain to make a barrel of flour. Mr. F. Appleton, the manager of the mills, states that in all cases payment is made as soon as the wheat is weighed, and the money is thus at once put in circulation, and is of much benefit to the town as if the mill was located here. Just now from 140 to 155 barrels of flour are being turned out every 24 hours; and as the machinery is of the best and only skilled labor employed, the reputation which the flour has won is sure to be sustained.

Nakusp Ledge.

Since the railway reached Three Forks the Slocan Star has been shipping ore at the rate of fifty tons per day, and this record will be kept up for fully two weeks to come. The ore, like all previous shipments from here, is consigned to the Grant-Omaha smelter at Omaha. There are eight hundred tons to come down from the store house, with one thousand tons more from the mine during the winter. At the end of the week the Mountain Chief will resume its five hundred ton shipment. Other properties are preparing to ship, including the Alamo, Idaho, Noble Five, Cumberland and Surprise. About two hundred and fifty tons in all have been forwarded from here during the week, valued at $25,000. Besides this the Trail creek mines shipped—Le Roi, 30 tons to Everett; Josie, 14 tons to Tacoma, and the Gold Hill, 5 1-2 tons, also to Tacoma. The latter shipments were valued at $2475. The approximate value of the ores of the district shipped during October was in the neighborhood of $48,000.

At the Bluebell mine on Kootenay lake a primative concentrator is in use, the rock running two and a half into one. A big side cut has been made on the dump, and the ore taken out with slight difficulty. The ore assays about 60 ounces in silver and 50 per cent. lead.

Colonel Peyton, manager of the Le Roi mine on Trail creek, accompanied by an expert assayer and C. Vader, landed at Burton City on Monday. They brought in a complete assaying outfit, to thoroughly test the ledges discovered on Cariboo creek. If satisfied the colonel will invest a large sum of money in the camp.

Briggs Bros., of Minnesota, have eleven claims on the south fork of Kaslo creek, about ten miles from Kaslo. On one of them, the Ben Hur, they have done considerable work. The ledge is 12 feet wide and a tunnel 36 feet long has been run in it. The ore assays from 92 to 202 ounces in silver. A trail five miles in length has been made to the wagon road, and it is the intention of the owners to work seven men all winter. The ore will be shipped as soon as mined, and this is positively one of the claims that will ship via Kaslo.

The Surprise, adjoining the Noble Five group, is working five men, which number will be increased to twelve in a short time. The rich claims owned by Alexander Smith and a number of Chicago parties. It is one of the richest claims in the Slocan, the ore ranking next to the Dardanelles in high grade. At a depth of ninety feet the ledge has been crosscut, and in both drifts there are two and a half feet of solid ore. About 300 tons of ore will be shipped this winter, either via Kaslo or Nakusp, the cost of transportation alone determining the route.

At the commencement of the month Provincial Officer Faquier made his returns to the gold commissioner of the mining records made by him in this vicinity. Twenty-three companies, or 160 interests, were engaged at placer mining on Cariboo creek, ten companies taking out gold, which was valued at $17 an ounce. There were 75 men employed, at an average wage of $2.50 per day. Of the properties staked out 160 were creek claims and two bars, with 19 sluices, 5 shafts, 1 tunnel and 3 water wheels. The first placer was struck on June 23, but only two were recorded up to August 11, the remainder being since then and up to the end of September. The excitement over mineral followed, 31 quartz and four mica claims being recorded. July 26 marked the first mineral location, but it was not until August 27 that they began to pour in. In the same time about one hundred miners' licenses have been issued from here, besides the business that went to New Denver, Nelson and Revelstoke. It will be seen from these figures that the government made a good haul out of this section.

A rich pocket of gold has been uncovered in the Vandall mine, in the Big Bend. Four men took out $1000 in a week.

Monday evening the linemen completed their task of polling the C. P. P. R. telegraph system from Three Forks to Nakusp. The wire follows the railway.

A SIMCOE CO. MIRACLE.

THE STARTLING EXPERIENCE OF MRS. ROBINSON, OF MIDHURST.

Eleven Years Sickness—Her Case Pronounced Positively Incurable—She Was Given Up to Die by Two Doctors—Now a Picture of Good Health and Strength.

From the Barrie Examiner.

Near the village of Midhurst, about six miles from Barrie, stands the smithy of Mr. John Robinson, while with'n sound of the anvil is his home, where in the midst of a large and leafy orchard dwell the smith and his family. Mr. Robinson is a type of the proverbial blicksmith with "the muscles of his brawny arms as strong as iron bands," but with Mrs Robinson it has been different. The wife and mother has for a long time been a victim to acute and painful dropsy of the kidneys. Shortly after the birth of her youngest child (now about 13 years) Mrs. Robinson began to take fainting spells, accompanied by violent headaches. This continued through the years that have elapsed, during which time she has obtained the best medical advice available. For about a year she was in constant terror of going insane. Her dull heavy headaches, beating pain in the back and weak swollen legs and body made her case something fearful. To a representative of the Examiner Mrs. Robinson said: "It is some five or six years since I took worse, and since then we have spent hundreds of dollars in medicine and for medical advice. The symptoms of my case were heavy headaches, pain in the back and kidneys and swollen legs. I rapidly grew worse, and last July was given up by two doctors to die, and all my friends and neighbors tell me that they never expected to see me out again. I could not raise myself up, could not dress myself, and had to be assisted in everything. Now I am well and strong, and can put out a big washing without any overexertion. I have also suffered from diarrhoea for a number of years, and when I spoke of it to my doctor he said if it were stopped, worse results would follow. At the urgent request of my son, who was then living in Manitoba, and personally knew of wonderful cures wrought by Dr. Williams' Pink Pills, I decided to give this remedy a trial. Since using the Pink Pills I have been completely cured and have felt none but beneficial effects. Only the week before I commenced taking the Pink Pills I was told by a physician that he could not cure me, and that I would likely get worse when spring came. He analyzed my blood and said it was in a fearful state and that my disease was dropsy of the kidneys, which positively could not be cured. This was about the middle of last January. After the third box of pills my backache left me and it has not since returned. I have taken thirteen or fourteen boxes in all and owe my recovery to this wonderful medicine. I can't praise Pink Pills too much, whatever I say of them," said Mrs. Robinson.

"I recomend them to everybody. I can't speak too highly of them. They saved my life, and I feel it my duty to let others, who are suffering as I was, known all about them."

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In cases of paralysis, locomotor ataxia, sciatica, rheumatism, kidney and liver troubles, erysipelas, scrofulous troubles etc., these pills are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to sallow cheeks. Men broken down by overwork, worry or excesses, will find in Pink Pills a certain cure. Sold by all dealers or sent by mail, postpaid, at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schnectady, N. Y. Beware of imitations and substitutes alleged to be "just as good."

Canadian News.

St. Johns, Nfld., Nov. 10.—The Red Cross line steamer Sylvia, from New York via Halifax, reports that she encountered fearful weather after leaving Halifax for this port. Yesterday morning the hurricane struck her, sweeping everything movable from her decks, including her deck load of 250 barrels. The ship narrowly escaped foundering. The same gale swept over here, levelling many miles of telegraph lines and causing considerable damage to a wide tract of country. A local schooner, bound for a neighboring harbor with 21 men on board, has been missing since Sunday. It is believed that she has foundered.

LIPTONS' TEAS

Direct from the Sweet-Scented Island, Ceylon.
PURE! FRAGRANT! DELICIOUS!

The Finest the World Can Produce

SOLD BY ALL BEST GROCERS.

These celebrated Teas were awarded **Highest Honors at the World's Fair** and are famed the world over for their Exquisite Aroma, Delicious Flavor, Refreshing Qualities and Great Economy. RECEPTION AT NANAIMO.

Governor-General and Party Pay a Visit to the Coal Mining Districts.

Addresses Are Presented by the People of Nanaimo and Wellington.

Wellington, Nov. 10.—The viceregal party arrived here yesterday shortly after 1 o'clock, the whole town being at the station to welcome them. As their excellencies stepped from the train the school children sang "God Save the Queen," after which the Finnish silver cornet band and the Wellington brass band played patriotic airs. Mr. J. B. Hugo read the following address:

To His Excellency the Right Honorable Sir John Campbell Hamilton Gordon; Viscount Formartine; Lord Haddo, Methlic, Tarvis and Kellie; Viscount Gordon of Aberdeen; Baronet of Nova Scotia; Earl of Aberdeen, P.C., LL.D., etc., etc., Governor-General of the Dominion of Canada and Vice-Admiral of the same.

May it Please Your Excellency:—

On behalf of the inhabitants of this industrious district of Wellington, we are authorized to bid you and your honored Countess a cordial welcome and to extend to you such courtesies as are at our command.

We are well aware that in making your tour of our Province you have deservedly met with many loyal and hearty receptions, but although we are not elaborate in display we will not give place to any community as loyal subjects and law abiding citizens.

We assure Your Excellency it is an unalloyed pleasure to receive with welcome one of the first in the ranks of the classes, who has already earned a warm place in our hearts by familiarizing himself with the normal conditions of our people, and has never evinced any hesitation in intermingling and fraternizing with the masses in all matters that make no inroads on loyalty.

The high honor that has been been conferred on us by Your Excellency's and Lady Aberdeen's visit will long be remembered by those who have the happiness to be present on this occasion, and when you take your departure you will so take with you the fervent wishes of a loyal community, whose earnest desire is that they may again be similarly favored.

ALEXANDER SHARP, Chairman.
WILLIAM RUSSELL, Secretary.

Miss M. Anderson presented the Countess of Aberdeen with a bouquet and Miss Jennie Bryden presented Lady Marjorie Gordon with one.

In replying to the address His Excellency said:

Your Honor, Mr. Dunsmuir, Ladies and Gentlemen:

It is a happy and appropriate circumstance that the terminal point of the railway over which we have enjoyed a most agreeable and interesting trip we should be received by this loyal and cordial demonstration. I can assure you that we value such a manifestation and shall not forget it. This indication of public spirit, of cordiality and characteristic British Columbia hospitality is certainly something that reflects credit upon the people of this enterprising locality and city. I can assure you that we have looked forward with much interest to this part of the tour, which, as the address remarks, we have been enabled to make through the province of British Columbia, and the impression which we have formed of the resources of the country, and what is still more, of the determination of the people to develop these resources, makes us more than ever proud to be associated in this great work of developing and building up more and more the prosperity of this important part of the great British empire. And, ladies and gentlemen, while I refer to what may be called the official and public aspects of this expression and this occasion, I need scarcely assure you that this makes us none the less value those kindly personal sentiments which are here conveyed. It is not only gratifying—it should, I think, be encouraging to those who are called upon to fill any public position, to find that any endeavors they may have made to do their duty in that position are so kindly and heartily recognized, and therefore I thank you again for the manner in which—in an admirably short compass—you have contrived to indicate those various expressions to which you have made reference. I will not detain you longer. I am all the more desirous of curtailing my remarks because we shall wish to make the most of our opportunities of visiting Wellington. (Applause.)

Continuing, the Governor-Genarl addressed a few words to the children, expressing particular pleasure at the presence of the Boys' Brigade. He promised to offer a prize for the best boy in the brigade. In conclusion he said: I must explain that we have to be at Vancouver, where we have an engagement this evening. I hope you will forgive us if our visit is brief. I want to offer our testimony regarding the kindness and hospitality of Mr. Dunsmuir. I consider that he and his colleagues have acted in a public spirited manner in thus enabling the Governor-General to have a good view of the country in such a favorable manner. And this is not merely personal matter—it is a public spirited and patriotic thing, for of course it is the duty of the Governor-General to see as much of the country as possible. We have, as I have already said, been enabled to make this trip through the courtesy of Mr. Dunsmuir and those whom he represents, and I beg to offer my thanks to him, and I am sure I am also expressing your opinion, for the manner in which we have been entertained by them to-day. (Aplause.)

A short time was spent in viewing No. 6 shaft under the guidance of Mr. Sharpe, at the conclusion of which the party returned to Nanaimo on the special train.

AT NANAIMO.

Nanaimo, Nov. 10.—A royal welcome was tendered the Governor-General and Countess Aberdeen upon their arrival here yesterday afternoon. Although the visit was a short one, it was made as pleasant as possible. The New Vancouver Coal company's mines were inspected and other points of interest. The party were met at the station by the mayor and aldermen and the silver cornet band and escorted to Dallas square, where thousands of citizens had assembled and cheered the viceregal party as they arrived. Mayor Quennell read the following address:

To His Excellency the Right Honorable Sir John Campbell Hamilton Gordon; Viscount Formartine; Lord Haddo, Methlic, Tarvis and Kellie, in the Peerage of Scotland; Viscount Gordon of Aberdeen, in the Peerage of the United Kingdom; Baronet of Nova Scotia; Earl of Aberdeen, P. C. LL. D., Governor-General of Canada, etc., etc.

May it Please Your Excellency:—

As Mayor and Aldermen of the city of Nanaimo, acting on behalf of the citizens, we extend to the Countess of Aberdeen and yourself a most cordial welcome to the coal metropolis of the British North Pacific, on the occasion of your first visit to this province in your official position as Governor-General of the Dominion of Canada.

We feel highly honored by your presence in our midst as the distinguished representative of the British Crown, and embrace the opportunity to express our continued loyalty and devotion to the throne of our beloved Sovereign Queen Victoria.

The keen practical interest you have taken in all matters affecting the welfare of the Dominion and the extensive enterprises you have personally started in this province induce us to bring to your attention the importance of our coal mining industry.

The city of Nanaimo is the pioneer coal mining centre of the North Pacific Coast, the first shaft being sunk by the Hudson Bay Company forty-two years ago. Under the progressive management of the present owners the New Vancouver Coal Mining and Land Company, Limited, of London, England, locally represented by Mr. Samuel M. Robins, the Nanaimo collieries still retain the first position in point of capital invested and monthly output. As you have expressed a desire to visit the company's works we feel it would not be amiss out of place to draw your attention to the successful adoption of many of the modern appliances for mining and handling coal in rogue in these collieries, notably that several electric locomotives are in daily active service, hauling long trains of coal cars, 850 feet below the surface, running underneath the waters of our harbor from the Esplanade shaft in this city to Protection Island shaft, a distance of a mile and a half.

Your Excellency, doubtless, is well aware that the principal consumers of the superior coal mined in British Columbia are our American neighbors in the Pacific slope. Reciprocity in coal between the United States and the Dominion of Canada would, we feel certain, prove mutually beneficial, and would certainly create a larger demand for British Columbia coal and thus materially add to the prosperity of this city and of the province and of the Dominion.

The extensive beds of high grade iron ore contiguous to our coal seams induces us to hope that the establishment and successful operation of extensive smelting works is not far distant, and that such works will in all probability be located in Nanaimo.

The port of Nanaimo undoubtedly stands the highest in the province in regard to the volume of deep sea vessels loading cargoes, and the necessity of a drydock suitable for repairing vessels of large tonnage is most keenly felt. The great range of tide and the natural site in our harbor would enable such a dock to be constructed at comparatively a nominal cost.

Concluding, we desire to express the wish that Countess Aberdeen and yourself have found your trip to and sojourn in the Pacific province a source of pleasure and enjoyment and that your future may be replete with happiness and prosperity.

His Excellency replied as follows:

Your Honor, Mr. Mayor, Ladies and Gentlemen:

I return you most hearty thanks for this demonstration expressed in this address and manifested in the manner in which you have received us. It is a cordial demonstration; it is public spirited, it is patriotic and above all it is hospitable and heart-felt. (Applause.) If I were a thought reader I think I might do a little business at this moment. (Laughter.) I think that some—perhaps a good many here—are thinking that if the Governor-General and his party are so pleased to get to Nanaimo it is a pity they did not come a little sooner. (Laughter.) Well, I agree with that. But you must not think that it was any want of will that hindered us. There was some slight detention on the journey, and it happened that we arrived at Wellington an hour after the time we were expected to arrive, and that we have come to Nanaimo about an hour late, but you will observe that we did not remain at Wellington longer than we had promised to stay there, and, on the other hand, we intend not to leave Nanaimo sooner than we had intended—that is to say, we shall remain here for the two hours and a half which we originally proposed. (Applause.) If there was some detention in coming here, I must say that it was not from any want of efficiency in the management and arrangements of those through whose courtesy and consideration and through whose public spirited and loyal feeling we were able to make this journey in such a convenient manner to-day. I wish to return my thanks and those of the ladies and gentlemen who travelled with me for the manner in which the authorities of the Esquimalt & Nanaimo railway, represented by Mr. Dunsmuir and his colleagues, have entertained us on this occasion. This address, Mr. Mayor, is not only gratifying because of its sentiments, but also because of the information which it affords, not

(Continued on Page 8.)

A Little Daughter

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BIRKS, the well-known Druggist, 207 McGill st., Montreal, P. Q., says:

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good said of them. I know of many

Wonderful Cures

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of

Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Cures others, will cure you

THE PIBROCH LIBELLED.

An American Writer's Opinion of the Soul-Inspiring Pipes.

The Times gives the following as a curiosity and not with the view of endorsing the libellous effusion: "In its native land, where the bagpipe can echo its music among the crags and peaks, the effect may be enchanting. The struggle between a musician and his bagpipe is to us a thrilling sight. The Scot puts his left arm around the waist of his instrument, endeavoring to catch an under "holt." The fellow, when he is coupled to the machine, fairly bristles with tubes, nozzles and pipes, which point out over his shoulder, from under his arms, and from all available points. When everything is ready he looks up and seems to take a parting glance at the sun, the leaves, the birds and the beautiful things of nature. Then he shuts his eyes and the struggle begins. He pumps with his arms, works his knees, heaves his chest, and humps his back. After he has been at this a while a doleful sound begins to issue from one of the tubes. A pipe catches the disorder. Then a nozzle breaks out, and all nature becomes startled and pained. He puts on more steam, throws the wind into another flue, and there is a fresh outbreak of noise. He works the keys, and squeezes the animal into another locality. It has only been ten minutes since he began work, still in this short space of time he has succeeded in turning loose eleven different noises. Some people claim that actual tunes can be played on the bagpipe. We have never heard anyone play anything we could recognize as having heard before—unless it was a piece similar to one that had been played on some other bagpipe. When a bagpipe is all in motion, from the tube that makes the busy-bee buzzing noise, to the flue that keeps running the scale from both ends at the same time, then the musician's work is only half done. He has got to get all the wind out of the machine, and stop it in some way. We have never known less than half an hour's work to silence a full-grown healthy bagpipe after it had once got to hooting its best, and even then it was liable to break out in some spot that hadn't been plugged up, and compel the poor, tired player to "tackle it again.""

Common Sense

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local appliances can do no permanent good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

HOOD'S PILLS cure constipation by restoring peristaltic action to the alimentary canal.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

RECEPTION AT NANAIMO.

Continued from Page 7.

only to me, but to others, concerning the trade, conditions and prospects of this enterprising centre. I join with you, Mr. Mayor, in expressing hearty good wishes and expectations as well as hopes that your enterprises here will be enlarged and developed. (Applause.) I must not dilate upon these topics. It is unnecessary at the present moment, and besides the object we have is not to speak so much as to see and hear of the surroundings of the locality, the illustrations of business enterprise and what can be told us in the limited time at our disposal regarding the concerns of the place by those with whom we may have the pleasure of conversing during our stay. (Applause.)

We have noted the signs of welcome and mottoes on every hand and also the musical demonstration by your band. I don't think I ever saw a band play so long without stopping to take breath. (Laughter.) That is a good sign of the healthy state of the lungs of the members, but if it is a good thing for a band, it is not a good thing for a Governor-General to be long winded. (Laughter.) I saw also the motto "God bless her and you." That was a kind reference to Lady Aberdeen and a very good sentiment, which, I can assure you, we both appreciate. (Applause.)

His Excellency concluded his remarks by referring to the sweet singing of the children when rendering the national anthem, "God Save the Queen," and said he felt confident that they would prove loyal subjects, and Canada had every reason to be proud of her people and her resources. He had become acquainted with the children of Nanaimo in an indirect manner, through a letter of a little girl of Nanaimo to Wee Willie Winkie, edited by Lady Marjorie and her mother, and expressed the pleasure it afforded Lady Aberdeen and her daughter to have letters from little girls for the columns of that journal. His Excellency asked that a whole day's holiday be given to the children on the first opportunity to remind them of his visit.

Miss Margaret Quennell then presented Lady Aberdeen with a choice bouquet of flowers on behalf of the ladies of Nanaimo.

Miss Etta Stannard then read and presented Lord Aberdeen with the following address from the school children of Nanaimo:

To Their Excellencies the Earl and Countess of Aberdeen:

May it please your excellencies to receive the greeting of the children of Nanaimo.

You come to us in the name of Her Majesty, Queen Victoria, who whether as the sovereign of a mighty nation, or as one who in her high place has during her long life set an example of simple goodness and complete devotion to duty, is alike deserving of loving reverence and hearty loyalty.

As loyal children of the broad Dominion of Canada, we greet Lord Aberdeen the head of its government. We hope and believe that your visit will help us to feel that we, the children of the prairies and those of the older provinces beyond them, are only different classes in one great school. So that when our turn comes to take our places as citizens, we and they will do our parts to make Canada the home of a united, an upright and prosperous people.

But though the Viceroy of England and the Governor-General of the Dominion claim our homage and command our loyalty, our heartiest welcome is extended to Lord and Lady Aberdeen, who, in whatever position they have been placed have shown that they have learned by heart the lesson taught by their country's poet

"That man to man the world o'er
Should brithers be and a' that."

and who leave behind them wherever they go the memory of kindly deeds and earnest helpful words.

We thank you very sincerely for the honor you have done us in asking us to meet you and hope that ere you take your last journey to the "Land o' the Leal" you and your children will spend many a long year in the world you are doing so much to make a better and happier one.

On behalf of the children of Nanaimo.

Master Bertie Shaw, attired in a Gordon tartan costume, presented his lordship with a button hole bouquet, whilst Miss Katie Johnson presented a bouquet to Lady Aberdeen, and Miss Rawlinson presented another to Lady Marjorie Gordon. Then taking little Bertie Shaw by the hand His Excellency once more briefly addressed the children, in which he assured them their address would be most valued they had received during their tour of the Dominion. His remarks concluded amid three spontaneous cheers from three thousand throats.

The party were then driven to the various works of the New Vancouver Coal company, where they were shown every courtesy by Mr. S. M. Robins. They also visited the hospital, where words of comfort were whispered to the patients, after which the party were driven to the wharf, which was adorned with triumphal arches and evergreens that gave it a picturesque aspect. It was shortly after five o'clock when the Joan was reached, and with expressions of the pleasure the visit had afforded them their Excellencies departed for Vancouver.

NANAIMO AFFAIRS.

The Water Supply and the Electric Lighting Services.

Mr. James McGregor, M. P. P. for Nanaimo, is in the city. Being asked whether or not business was improving in the Black Diamond city, the good-looking successor of Mr. Keith replied that he thought there was a slight change for the better.

Concerning civic matters, he observed that the water supply was also engaging the attention of the people up there. "It has come to this," said he, "that either the company will have to give a better supply or the corporation will have to take the matter out of their hands and supply the town properly. As it is now it is all right while two or three lines of hose are drawing from the mains, but beyond that the pressure gives out and we cannot cope with a big fire."

In reference to lighting, he had frequently heard it remarked that Nanaimo obtained more light from her 2000 candle power lamps than Victoria did. He did not know why, but they appeared to be stronger and more brilliant. He had noticed by the papers that Mr. Stickels had some little difficulty down here, but for his part during the years Mr. Stickels was in Nanaimo he had never heard the quality of his work nor his management in any way questioned, and to him (Mr. McGregor) as a private consumer he had given every satisfaction.

REAL ESTATE MEN ARRESTD.

Serious Charge Against James A. Winnett and George Cooper.

James A. Winnett and George A. Cooper, the well known real estate men, were arrested last night by Detective Perdu on a warrant charging them with obtaining money under false pretenses. The complaint was sworn to by Philip Brander Eteson, a young Englishman. The case was called in police court today, but was not gone into, so the merits of it are unknown. The charge grows out of a real estate transaction of last summer, in which the firm bargained to sell to Eteson a certain piece of land on the Gorge. On June 17 he gave them a check for $150, which was cashed the following day. The contract has never been completed, and it is claimed by Eteson that Winnett and Cooper had no authority to act in the matter, that title could not be given, and that the intention was to defraud. In police court this morning S. Perry Mills for the defense stated that the case was clearly one for civil action. The hearing went on until this afternoon and the accused were admitted to bail in the sum of $250 each and were liberated after being in custody since last night. The further hearing of the case was set for Friday next.

Brief Locals.

—Teeth extracted, 50c. each. Dr. A. Humber, 93 1-2 Douglas street.

—Mr. Justice Drake handed down his decision to-day in the case of the Corporation v. Ullman. He found for the defendant and gave him costs as well. The learned judge held that a person who comes here and buys goods for export is not a trader within the meaning of the municipal act.

—The funeral of the late J. B. Carmichael will take place to-morrow afternoon at four o'clock from Castle hall, Broad street, and services will be held at Christ Church cathedral at 2.30 o'clock. The funeral will be under the auspices of Far West lodge, K. of P. It has been decided that no inquest is necessary, and Coroner Hasell signed the death certificate required.

—Three sneak thieves were sent up by Magistrate Macrae this morning. For stealing a suit of clothes from Marks' store on Store street James Barry, alias James Malley, got six months. Harry Irving, alias John Waddell, also stole a pair of shoes at Gilmore & McCandless' store, and got two months. John Dolglng, alias J. McManus, who stole a lot of shirts from Luko's store on Store street, got six months.

—The funeral of the late John Haldon of Saanich took place yesterday at 2 p. m., from the family residence. The cortege, a mile and a quarter long, told of the high esteem in which the deceased gentleman was held. The Rev. Christmas officiated at the church and grave. The pallbearers were Messrs. John Pearse, Edwin John, H. Simpson, W. Thomson, George Harrison and Mr. Marcotte.

—The ladies of the Catholic church, who have been working for some time past for their bazaar which is to be held on Tuesday, the 18th, have spared no efforts to make it a success. A substantial and delicious lunch will be served and it is hoped it will be liberally patronized by their friends. Afternoon tea will be ready for ladies and a delightful musical programme in which 20 little maidens will appear in dance and song, will be given during the evening.

—J. Marymont, charged by Collector A. R. McNee with smuggling sixteen watches into this country from the American side, was arraigned in the police court this morning. Mr. Duff appeared for the defence and Mr. Drake for the Dominion government. Appraiser Shears and Mr. Marymont were the only witnesses, all of the facts being admitted. The defence was a peculiar one. Marymont said that he went to Port Angeles to purchase one thousand cords of wood, and while there traded his ring for the watches. He did not believe the goods were dutiable, because he had not bought them. Mr. Duff raised the point of proving intent to defraud and the court reserved its decision.

THE CHURCHES.

Central Presbyterian church, cor. Kingston and Oswego streets, James Bay—The pastor, Rev. P. McF. McLeod will preach morning and evening. Sunday school at 2:30 p.m.

Herald street Indian Mission, Rev. C. M. Tate, pastor—Sunday services at 10 a.m., 2:30 and 7 p.m. Week nights, Tuesday and Friday.
